
CJASD: CRIMINAL JUSTICE ADVOCACY & SUPPORT DIRECTORY
Directory of Services

Guide to Services for Pennsylvania Inmates, Victims of Crime & Their Families

2019-2021

Introduction

The purpose of this directory is to provide a comprehensive listing of agencies in Pennsylvania, and to some extent nationally, which serves the needs of inmates, ex-offenders, victims of crimes and their families, criminal justice professionals, volunteers and support persons. This directory is also intended to promote networking among the various individual agencies working within the criminal justice system.

The compilation, publication and distribution of this directory are the cumulative efforts throughout the past 25 years of countless professionals, volunteers, inmates and concerned citizens.

Special recognition goes to Mr. Angus R. Love, Esq., Executive Director of the Pennsylvania Institutional Law Project and to Mr. Thomas L. Brewster, Executive Director of CentrePeace, for their leadership, support and commitment to this directory. Both of these men have dedicated their lives to making a difference in the criminal justice system and in the lives it affects.

Gratitude is also extended to the Pennsylvania Department of Corrections for their cooperation in distributing the directory to correctional institutions throughout the Commonwealth.

And finally, sincere thanks to the small staff of CentrePeace and to the army of volunteers for the hours of assistance they provided in making this directory possible.

Every attempt has been made to provide accurate and current information. Inevitably, errors will be found. CentrePeace would appreciate being notified of any corrections, additions or deletions.

Many former inmates re-offend and return to jail after their release because they lack informal and formal support systems needed to help them reintegrate back into their communities. The **HOPE Aftercare Program** is an interfaith pre- and post-release adult reintegration program for inmates and reentrants that seeks to ensure their successful return to the community. HOPE Aftercare provides information resources, referrals, and guidance regarding employment, housing, education, food assistance, mental health services, and clothing.

The program's mentoring component matches inmates and reentrants with mentors who can assist them on a one-on-one basis. Mentors maintain professional relationships with their mentees by visiting them in jail at least three times a month and maintain the match for at least a year. Upon release, mentors and mentees are expected to meet weekly. Continuing education classes on topics, such as eco-maps, criminal and addictive thinking patterns, and healthy boundaries, provide mentors with the tools necessary to maximize their effectiveness. On the outside, our weekly support groups provide a forum for reentrants and their supporters to share resources, network, and address social, intellectual, vocation, spiritual, emotional, environmental, and physical needs. All services are provided free of charge.

IV. State Department of Corrections

Pennsylvania Correctional Industries (PCI) aims to maximize inmate employment while providing vocational training and work experience. The program provides inmates with job skills that are marketable in high-level production and manufacturing occupations. Inmates are trained in 115 different job titles, including machine and equipment operators, laundry workers, cannery workers, shipping and receiving clerks, painters, meat cutters, bookkeepers and optical lab technicians. To qualify for the program, inmates must be in good standing and able to read at a fifth grade level.

Bureau of Community Corrections

The Bureau of Community Corrections supervises the residential treatment services provided to inmates housed in the Department's 14 community correction centers and nearly 50 private contract facilities. Programs include transition services from state correctional institutions to the community, as well as a halfway-back program for parolees encountering difficulties in the community. Community corrections centers are instruments of the Department of Corrections that provide initial support to the resident in his or her first steps back to the community through: counseling services to both individuals and their family; employment assistance; vocational and educational guidance; and referrals to other public and private agencies. Additional information is available at www.cor.state.pa.us.

Community Orientation Reintegration Program

The Pennsylvania Department of Corrections recently began a new pre-release program, the Community Orientation Reintegration Program. The first phase begins five weeks before an inmate is released to parole. The inmate is taken out of all other programs and given a "booster shot" of programs, which includes such elements as drug and alcohol programs and anger management. In Phase II, inmates are released to a community corrections center/halfway house, where they receive social services and job assistance and continue drug and alcohol treatment and relapse prevention. If an inmate has not received drug and alcohol treatment during incarceration, he or she is placed in a residential treatment program under contract with the PA Department of Corrections for 30 or 90 days. Inmates who have received treatment during incarceration attend day treatment at the community corrections center. Once inmates

find a job they are allowed to leave the center and enter regular parole. A description of the program can be found at <http://www.cor.state.pa.us>.

Pennsylvania Energy Assistance Programs

Pennsylvania Energy Assistance Programs

Budget Billing

All residential customers may contact their electric or natural gas company and request budget billing at any time. Each monthly bill will be the same amount. The company may adjust the bill four times a year, up or down, depending on the customer's usage.

Customer Assistance Program (CAP)

CAPs can lower your monthly utility bill. CAPs may also remove the amount you already owe. The different CAP names are shown beside the company names below. The company works with the customer to determine what the customer can pay versus the cost of energy used.

Customer Assistance Referral and Evaluation Program (CARES)

The **CARES** program helps customers with special needs. CARES may help you find ways to pay your utility bill. For example, special needs are customers who are experiencing family emergencies, divorce, unemployment, or medical emergencies. The goal is to provide support and direction to help customers pay their utility bills.

Low-Income Usage Reduction Program (LIURP)

LIURP helps low-income residential customers lower the amount of electricity or natural gas used each month. Typically, the company may install energy saving features in your home to help reduce bills. For example, smaller bills mean your payment covers a greater portion of the bill, or perhaps covers the whole bill.

Hardship Funds

Utility company **hardship funds** provide cash assistance to utility customers to help them pay their utility bills. Hardship funds provide assistance grants to customers who "fall through the cracks" of other financial assistance programs, or to those who still have a critical need for assistance after the other resources have been exhausted. The funds make payments directly to companies on behalf of eligible customers.

Assistance Qualifications

Customers must meet certain income limits and be payment-troubled to qualify for CAP, CARES, LIURP and Hardship Funds. Payment-troubled usually means customers have made a payment agreement with the company. The chart below shows the income levels customers must meet for CAP. The income levels are slightly higher for LIURP, CARES and Hardship Funds. Customers who meet these limits, should call their local electric or natural gas company for details to see if you qualify. Each company's toll-free number is listed below.

2018 Household Size Monthly Income

- 1 person \$ 1,518
- 2 persons \$ 2,058
- 3 persons \$ 2,598
- 4 persons \$ 3,138
- 5 persons \$ 3,678
- 6 persons \$ 4,218
- 7 persons \$ 4,758
- 8 persons \$ 5,298 *(For each additional person in the household, add \$540.)*

Low-Income Home Energy Assistance Program (LIHEAP)

LIHEAP is the federal program that provides financial assistance to needy households for home energy bills. In Pennsylvania, the Department of Human Services administers the LIHEAP program. The LIHEAP program provides both cash and crisis benefits to low-income households. Cash benefits help low-income customers pay for their home energy needs while crisis payments help meet emergency home energy situations.

Your household income must be within certain limits to qualify. These limits are listed on DPW's website at [Energy Assistance - General Information](#).

For more information on LIHEAP and an application for, visit the Department of Human Services' website: [LIHEAP Application Form](#)

Federal Bonding Program

The Federal Bonding Program is an incentive program for hiring Individuals whose backgrounds pose significant barriers to securing or retaining employment, including:

- Justice involved men, women and youth
- People in recovery from substance abuse
- Individuals with poor credit reports
- Economically disadvantaged or those with little or no work history
- People dishonorably discharged from the military

Highlights of the Federal Bonding Program

The Federal Bonding Program is simple.

- NO bond approval processing
- NO papers for employer to sign
- NO follow-up and NO termination actions
- NO deductible in bond insurance amount if employee dishonesty occurs
- NO age requirements for bondee other than legal working age in State

What Is Fidelity Bonding?

- Insurance to protect employer against employee dishonesty.
- Covers any type of stealing: theft, forgery, larceny, and embezzlement.
- In effect, a guarantee of worker job honesty.
- An incentive to the employer to hire an at-risk job applicant.
- A unique tool for marketing applicants to employers.
- DOES NOT cover liability due to poor workmanship, job injuries, work accidents, etc.
- Is NOT a bail bond or court bond needed in adjudication.
- IS NOT a bond needed for self-employment (contract bond, license bond or performance bond.)

Why Is Fidelity Bonding Needed for Job Placement?

- Employers view ex-offenders and other at-risk job seekers as potentially untrustworthy workers, thereby, denying them job-hire.
- Insurance companies will not cover risky job applicants under commercial Fidelity Bonds purchased by employers to protect themselves against employee dishonesty.
- Anyone who has ever “committed a fraudulent or dishonest act” is deemed NOT BONDABLE by insurance companies, a situation leading to routine denial of employment opportunities for such persons.
- Being NOT BONDABLE is a significant barrier to employment possessed by the hardest-to-place job applicants; this barrier can be eliminated by The Federal Bonding Program.
- Job bonding enables the employer to “obtain worker skills without taking risk.”
- Persons who are not bondable can ultimately become commercially bondable by demonstrating job honesty during the 6 months of bond coverage under the Federal Bonding Program.

Who Is Eligible for Bonding Services?

- Any at-risk job applicant is eligible for bonding services, including: ex-offenders, recovering substance abusers (alcohol or drugs), welfare recipients and other persons having poor financial credit, economically disadvantaged youth and adults who lack a work history, individuals dishonorably discharged from the military, and others.
- Anyone who cannot secure employment without bonding.
- All persons bonded must meet the legal working age set by the State in which the job exists.
- Self-employed persons are NOT ELIGIBLE for bonding services (bondee must be an employee who earns wages with Federal taxes automatically deducted from paycheck).
- Bonds can be issued to cover already employed workers who need bonding in order to (a) prevent being laid off, or (b) secure a transfer or promotion to a new job at the company.
- Bonding coverage can apply to any job at any employer in any State.

How Can Bonds Be Accessed Under the Federal Bonding Program?

- Any organization is now eligible to deliver bonding services under The Federal Bonding Program; for many years bonding services were almost exclusively delivered by the State Employment Service.
- All organizations issuing Fidelity Bonds must be “certified” to do so by The Federal Bonding Program.
- The Fidelity Bonds issued to employers covering at-risk applicants are made available exclusively to The Federal Bonding Program by Travelers which is not duplicated by any other U.S. program.
- Bonds are issued instantly to be in effect the day that the applicant is scheduled to start work; the bonds are self-terminating (no termination paperwork needed), and the employer does not sign any papers in order to receive the bond free-of-charge.
- The bond insurance issued ranges from \$5,000 to \$25,000 coverage for a 6-month period with no deductible amount (employer gets 100% insurance coverage); when this bond coverage expires, continued bond coverage can be purchased from TRAVELERS by the employer if the worker demonstrated job honesty under coverage provided by The Federal Bonding Program.
- Bond can be issued to the employer as soon as the applicant has a job offer with a date scheduled to start work.

Individuals Seeking Bonding

- The Federal Bonding Program provides fidelity bonding for the first six months of employment for hard-to-place job applicants. Call toll free: 1.877.US2.JOBS (1.877.872.5627)
